JetString™ Sub

Workstring International introduces a New Design Concept for Jet Subs

Purpose

- 2-in-1 tool to improve efficiency and flexibility of jetting/cleaning operations of BOP/Wellhead/Subsea Tree Profiles

Advantages

- Saves rig time with flexibility of tool
- Enhanced assembly for directional jetting
- Improves downhole equipment cleaning
- Reduces BOP surface maintenance times

New Design Concept Benefits

- JetString™ Sub can be run integral of the drill string for short trips
- Full JetString™ Sub with urethane Bull Nose can be a dedicated run with adjustable nose port
- Adjustable nozzle ports dressed open or closed to direct the desired flow and TFA
- Variety of nozzle standard sizes available
- Designed and verified with FEA
- XT57 and 6 5/8" FH designs available, with others pending
